COCONUT CHARCOAL
FOR SHISHA
AND BARBECUE

Company Profile

SHISHA & BARBECUE

Indonesian charcoal

For global markets

Charcoal briquettes for shisha and barbecue, with product specifications and packaging developed for your market.

OUR FOCUS

Aero Charcoal manufactures charcoal briquettes in Indonesia at its own factory. Our product development focuses on the needs of shisha brands, distributors and barbecue buyers.

OUR APPROACH

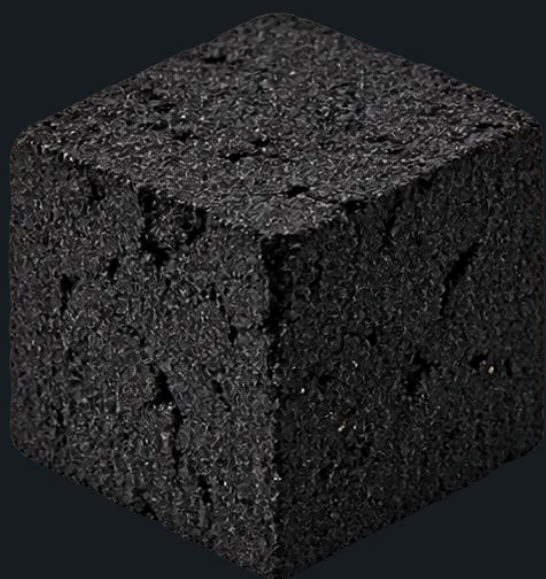

We discuss your requirements before recommending a product specification or packaging format. This gives both parties a clear basis for sample evaluation and order planning.

Two applications Four grades

01

SHISHA

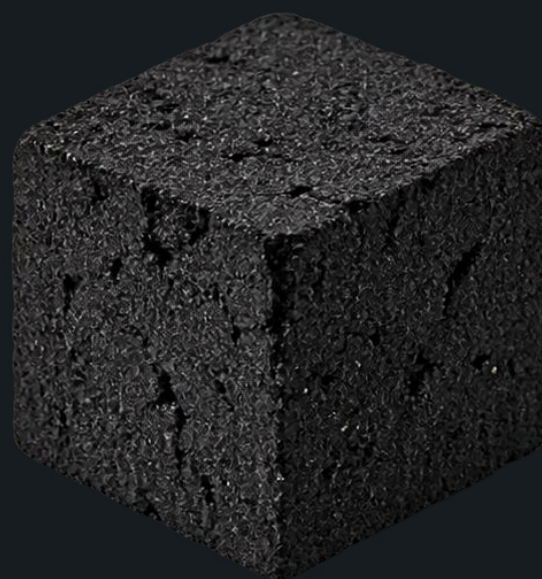

**Shisha
Signature**

Made to fit your application

Choose a shape and size for your shisha or barbecue application.
Final dimensions are agreed through sample approval.

FLAT

HEXAGONAL

PILLOW

CUSTOM FORMATS

Dimensions, density and tooling are confirmed through sample approval

Quality checks from start to finish

01

Material selection

Confirm the charcoal source, binder and any additives.

02

Forming and drying

Agree dimensions, density and moisture requirements.

03

Laboratory checks

Verify ash, moisture, carbon and other agreed parameters.

04

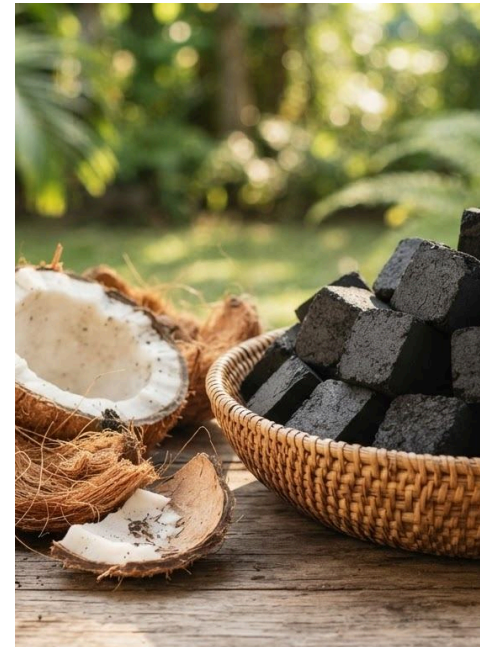

Application testing

Assess heat, ignition, ash and handling in use.

05

Batch review

Confirm the agreed checks before releasing a batch.

Proposed controls to be confirmed against factory procedures

From sample to shipment

The main steps in preparing and fulfilling an order

- 01** **PRODUCT BRIEF**
Confirm the application, specification, size, packaging and destination
- 02** **SAMPLE EVALUATION**
Evaluate the product and approve a reference sample
- 03** **ORDER CONFIRMATION**
Agree the quotation, quantity, artwork and payment terms
- 04** **PRODUCTION & VERIFICATION**
Confirm the production schedule and inspection requirements
- 05** **SHIPMENT PLANNING**
Arrange carrier acceptance, documents and loading

The process, lead time, minimum order and payment terms will be confirmed in the quotation and sales agreement.
